

TADDEO I TRIMLESS
(Recessed downlight 嵌入式天花燈)
INSTALLATION INSTRUCTION 安裝說明

Step.1

步驟.一

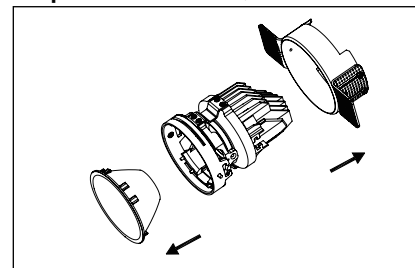

Make a same size cuthole as the picture on the ceiling.

在天花板上開一個如圖所示的安裝孔。

Step.4

步驟.四

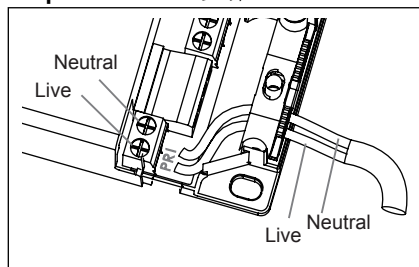

Remove the embedded frame and reflector from the fixture.

先將燈體的預埋框和反光杯拆除。

Step.2

步驟.二

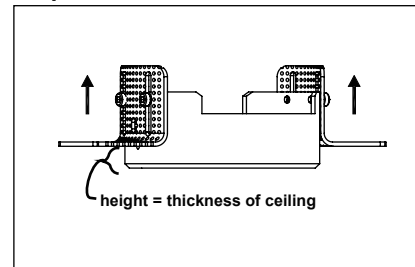

As shown in the figure, connect the live wire and neutral wire of the cable to the corresponding PRI slot in the driver .

如圖所示, 將火線和中線與驅動器的PRI插口連接。

Step.5

步驟.五

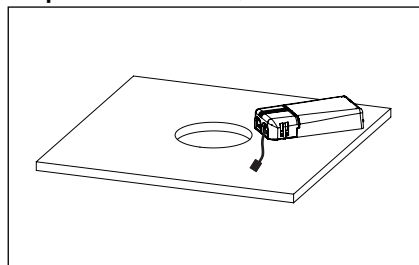

Adjust the height of the mounting support. The distance between the support and embedded frame should be the thickness of the ceiling.

調較鑲嵌支架與預埋框的距離, 距離應為天花板的厚度。

Step.3

步驟.三

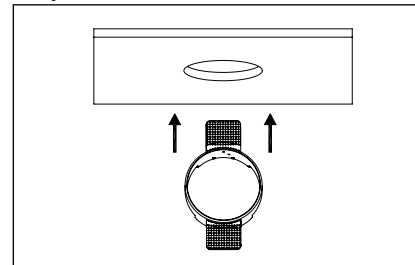

Put the driver into the opening of the ceiling and the driver installation complete.

將驅動器放入天花開孔內, 驅動器安裝完成。

Step.6

步驟.六

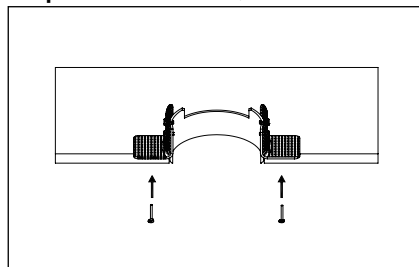

Insert the embedded frame into the cuthole on the ceiling.

把預埋框裝入天花開孔內。

Step.7

步驟.七

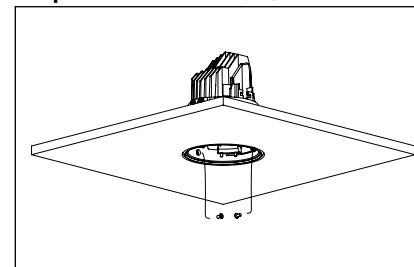

Fasten the embedded frame and the ceiling with screw.

用螺絲將預埋框鞏固在天花板上。

Step.10

步驟.十

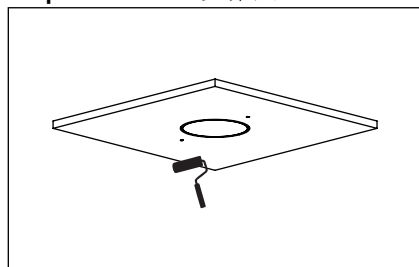

Fasten the embedded frame and the fixture with screw.

用螺絲將預埋框和燈體鞏固。

Step.8

步驟.八

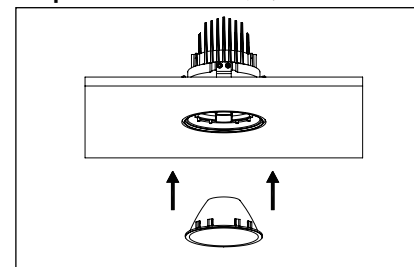

Plaster and paint the ceiling.

在天花板上批灰並油上油漆。

Step.11

步驟.十一

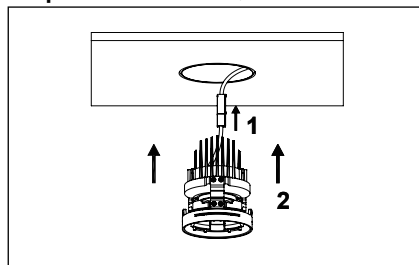

Insert the reflector into the fixture.

把反光杯裝入燈體內。

Step.9

步驟.九

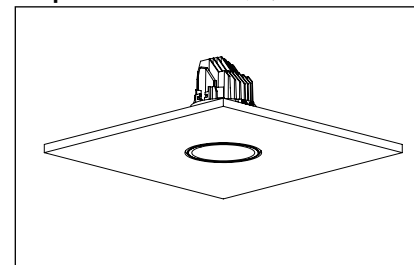

- 1. Connect the female connector of the driver with the male connector of the fixture.**
- 2. Install the fixture into the embedded frame on the ceiling.**

1. 將驅動器的母插和燈體的公插連接在一起。
2. 把燈體裝入預埋框內。

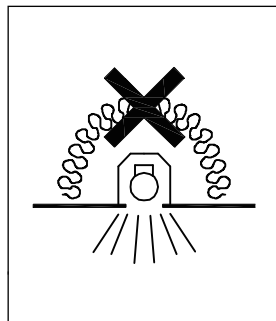

Step.12

步驟.十二

Installation is finished.

安裝完成。

Luminaires not suitable for covering with thermally insulating material.

任何情況下,燈具都不能被隔熱襯墊或類似的材料覆蓋。

WARNING:
